 - b. The pitcher having control of the ball in the circle cannot be used to send a runner back to a base, but will stop a runner from continuing
 - i. If the pitcher has control of the ball in the circle before the runner attempts to advance, they must return to the base from which they came.
 - ii. If there is an overthrow as a result of a runner(s) attempting to advance after the play has ended, the runner may only advance as far as 3rd base.
 - iii. There is no “baiting” permitted by the runner.

Fielding:

6. All players are to make every effort to avoid entering the 8ft circle for safety's sake.
 - a. Any violation of this in an attempt to make play on the ball results in the play being called dead and the batter/runners awarded 1 base if forced.
 - b. A "violation" consists of a player's foot or hand touching the ground within the circle.
7. The catcher is expected to stand in proper catcher's position until the batter has completed their appearance.
 - a. In an effort to speed the game up, the catcher will catch each pitch and then discard the ball to the backstop until the at bat is complete, then return all the balls to the pitcher/ coach for the next at bat.
 - i. On a dropped last strike, the catcher may only use the ball that is currently in play.
 - b. The catcher should try to catch the pitch, provided they are comfortable and capable of doing so and their safety is not compromised. Coaches are encouraged to teach their players to protect themselves and catch the ball before it bounces.
